Pros You can use the selfie camera feature to make a cartoon photo Cartoon animation filters are available to use on Android Cons Price: Free to use with in-app products It is an app that is designed for making photo cartooned. Pros You can save the cartooned photo to Photo Album directly It offers different video effects, including cartoon Cons Some users reported they couldn't import photos from Camera Roll Price: \$1.99 on the App Store Making social media hits is easy if you're using Sketch Me! App to cartoon yourself. Optionally, you can play around with Contrast, Brightness, and Saturation options if you want to enhance the colors in your cartoons. Pros It includes 8 different filters and effects You can save a photo to your cartoon library Cons Bugs may happen when importing a photo Price: Free, but the app offers in-app purchases Sketch, Cartoon, Halftone, Swirl, Pixellate, Emboss, Crosshatch, or Dots effects can be used to cartoon a photo in this app. Price: Free, but the app contains ads and in-app purchases Pros You can make your cartoon effects It has a very active community to share photos and win price Cons Some errors may happen like loading issue even if you are connected with wifi Besides offering a wide range of cartoons and emoticons, the MomentCam is also a community that awards prizes to its most creative members. Effects like Pastel, Cartoon, or Hatching let you achieve high artistic standards with this app easily. Just select a picture or take a new one directly from the app and become a Martian, a troll, or simply add a nice smile to your face. Jan 17, 2022* Proven solutions Making the photos and videos shared on social media can have a positive impact on the size of your followership. In this article, we are going to take you through the 15 best free apps you can use to cartoon yourself and increase the number of likes your posts on all major social media platforms are getting. Go to the Effects tab to find Cartoon. Price: Free You can cartoon yourself on your phone easily This great photo to cartoon app will give you real-time cartoon effect Cons It is updated regularly, so you can't use the up-to-date effects This simple app doesn't offer much else other than the Cartoon and Pencil Sketch effects. Pros You can take a photo from the app camera without using other devices It supports sharing cartooned images via email Cons You can't stretch images if you want to have more photo details Price: Free, but the app offers in-app purchases Transform your photos into beautiful and funny cartoons in seconds, or launch the camera and use the Photo to Cartoon Yourself Edit app to capture a perfect moment. However, the process of transforming your pictures into cartoons is completely automatic, which means that you won't have a lot of control over how the final version of your cartoon photo is going to look like. You can get inspired by watching anime online on different anime websites also. The live preview feature enables you to see how the photos and videos are going to look like once you hit the record button. The Toon Camera also lets you have cartoon images stored on the camera roll and allows you to share your cartoons on all popular social networks. You just need to drag and drop the cartoon effect in Filmora and drop it onto the video clip. Part 2: Best Photo to Cartoon App on Android Pros A basic and simple to use photo to cartoon app for beginners It contains nice and beautiful cartoons effects Cons Free filters and effects are limited Price: Free, but the app contains in-app purchases Even though the Cartoon Yourself app doesn't let you record videos or take photos, it is still a great option if you want to turn a photo into a cartoon effortlessly. The limited amount of cartoon effects, as well as the lack of photo editing options, makes Cartoon Sketch Camera a rather unattractive option. The app grants you access to a broad spectrum of emotions, so you can be really sad or even flirty in your new cartoon photo. Undoubtedly, you can use the app to cartoon yourself, but you won't be able to do much more. You can either use the application in live mode where all the warp effects are applied in real time in the camera preview giving you the possibility to record funny videos or snap comic photos, or you can select images from your gallery to apply funny warp effects. The effects are not limited to face distortion filters you can also apply sketch, cartoon and artistic filters giving you an almost infinite variety of results. You can control the strength of the caricature effects giving you the possibility to alternate from the subtle to the extreme. However, the free version of the app limits the size of the photos you can export, and to process pictures in HD, you have to choose one of the subscription models. The app is fairly easy to use, as you just have to select a photo you'd like to turn into a cartoon and pick a background that best fits the context of the picture. To make things worse, ads on the free version of the app can be quite annoying, and you must pay \$1.99 to remove them. Steps to make cartoon video effect Drag and drop the video onto the timeline. Experimenting with black and white caricatures is also an option you'll have at your disposal. Instead of just posting your latest selfie with well-known filters, you can add a dose of humor to the content you share online using cartoon apps that offer caricature and sketch effects. However, the video capabilities of this app leave much to be desired, as you can only create square videos in relatively low quality. Pros Regularly updated version to support more filters Customize cartoon filters setting with different parameters Cons Bugs may happen on the desktop version even if you are paid Price: Free, but the app contains in-app purchases With more than a thousand filters and effects, Paintn is easily one of the best cartoon yourself apps on the market. The best part is that new filters are released every day, so you can never run out of ideas for your next cartoon photo. The only downside is that you can only save the cartoon images to your phone or email them since there are no options to share files on social media. Pros Speedy customer support to solve any problem with the product Various and high-quality filters to use with customization Cons It doesn't support iOS version before 8.1 Price: \$1.99 If you're an iPhone user, you'll love recording videos and turning pictures into cartoons with Toon Camera, because the app offers a diverse range of cartoons, stipple, ink, and pencil effects. All effects can be previewed in real-time, so you can see the results before you snap a selfie or record a video. Once the photo is cartooned, you can save it to your phone or share it with your friends on social media. The auto-focus feature helps you keep the main subject of your videos and photos crispy sharp. Pros It supports autofocus when you are shooting a photo You can also use cartoon effects for gallery photos Cons You can adjust filter/effects parameters if you want to have more controls on photo Price: Free, but the app contains ads The Cartoon Photo Editor app lets you transform photos from your gallery into inspiring cartoons. All features the Moments Cartoon Caricature app offers are designed to help you make stunning social media images. The results of your creative efforts can be shared on Instagram, Twitter, or Facebook as a still photo or as an animated video. It is more powerful to make cartoon effects than apps. Even though this app isn't as popular as it used to be, it still offers some pretty cool art filters, which can make your photo look like it was painted by some of the greatest artists in history. In any case, Artisto is a great option if you would like to have some fun and turn your selfies and other types of photos and videos into cartoons. Pros It supports high quality up to 1080p when exporting You can choose different cartoon effects, including posters, sketches, and more Cons The subscription model causes some discontent for users Price: Free, but the app contains in-app purchases You can use your phone's camera or existing photos and videos to cartoon yourself with Clip2Comic. Try using the Cartoon Face Animation Creator and maybe your wishes are going to come true. Pros Use cartoon filter with just one click It has many filters for different emotions Cons It only supports 30 seconds if you are using a video Price: Free, but the app offers in-app purchases You can cartoon yourself in three simple steps with Artisto. Each effect can be fine-tuned, and you can adjust the Edge Strength or Opacity settings to highlight certain parts of the picture. Unfortunately, all cartoons you make with the free version of the app are going to be watermarked, and you may have to invest additional funds if you want to use some of the amazing Emoticon Packs. It also shows you the real-time preview of all effects you select, so you can see how your photos and videos are going to look like even before you capture them. Paintn is also a creative community where you can discover the artwork you like or meet like-minded people. It only takes a few seconds to let the cartoon effects in effect. Pros It supports various facial expression even a tiny one You can turn your face to an alien and others Cons The effects are not working sometimes Price: Free, but the app offers in-app purchases Wouldn't it be awesome if your next selfie created a WOW effect? It is under the Stylize section. The app also lets you adjust Brightness, Contrast, or Saturation values in all your photos so you can make the colors more vivid. You can choose from a lot of different effects and add text and stickers to your cartoons. Besides, each effect can be freely customized, which means that you can fine-tune your pictures and achieve the maximum visual effect. Images Introduction Create the funniest caricature pictures, record the craziest videos with this free face app. You can manipulate your photos in virtually any way you want since this photo editor lets you control the transparency, saturation, or brightness of all your images. Besides, the app enables you to use the phone's front and back cameras to capture videos or take photos. The sharing options, however, are quite impressive as you can share your cartoons on all popular social networks with a single tap. Thermal Vision, Crosshatch, or Cartoon are just a few among many filters you can choose from. You can make it happen with just one click. You can cartoon photos stored on your phone or take new ones and transform them into brilliant cartoons. The app's photo editor offers a rich selection of tools that can be used to turn pictures into cartoons in any way you want. Alright, let's dive into the entertaining and goofy world of cartoon yourself apps. You can apply cartoon effects with one click Cons Some users say the loading experience is bad Price: Free By downloading this app, you'll be able to participate in selfie contests or simply enjoy the amazing caricature tools that let you turn an ordinary moment into a hilarious picture. For just \$1.99, you can order a postcard that includes a photo you made with Clip2Comic. What's more, the app offers a lot of amazing photo effects, and it lets you save your creations in SD and HD quality. All photos you edit with the Cartoon Camera Free app can be saved to your camera roll or shared on popular social networks. Use the app to snap a photo or record a video, choose the filter you'd like to use, and save the results. This powerful photo-to-cartoon app is worth trying! Part 3: What If You'd Like to Cartoon Yourself on Computer The best editor helps you easily cartoon yourself One-click to use cartoon effect Fine-tune the cartoon settings Built-in plentiful templates and effects Export to MP4, MOV, MKV, GIF and multiple formats There is a cartoon style feature in Filmora, which provides you the ability to convert normal videos and photos into cartoon style. You just have to tap the 'Add a Photo' button to select a picture and then tap the 'Apply Effect' button to start browsing through the app's rich collection of stickers and cartoon effects. You can also add glasses, pick hairstyles or beards, and choose from many more visual elements. The only concern is the ads since some users say they can be invasive. The Moments Cartoon Caricature allows you to access the phone's front and back cameras and take as many photos as you like. Drag it onto the video clip and change the presets, brightness, saturation to make it amazing. The file-sharing features the app provides are modest but powerful enough to enable you to share your images on popular social networks or send them to your friends via email. Selfie mode can make your photo editing easy when you want to make a cartoon photo. The Deformation tools help you create caricatures, while the app's photo editing tools enable you to crop your images or enhance colors. You can watch how other creators are making videos in the Wondershare Video Community. The Cartoon Yourself app also offers basic photo editing tools that allow you to crop, mirror, or rotate pictures. If you prefer to cartoon photos online without downloading any photo cartoon software, you can visit these online photos to cartoon websites. Free download Filmora to try the cartoon-style effect now. Pros The new cartoon effects are released every day You can find more than 300 filters to use Cons You can only cartoon on the photo each time Price: Free, but the app contains ads and in-app purchases Only a few years ago, Prisma was by far the most popular cartoon yourself app on the market. The pictures you edit with this app won't be shrunk or awkwardly stretched during the photo editing process, which guarantees the high quality of images. You no longer have to imagine how you would look like a cartoon character since you can easily cartoon a photo or a video with a third-party app for iOS and Android devices. There are eight comics, toon, and sketch art filters to choose from, and you can easily turn pictures you created into cartoons even after you've taken a photo or recorded a video. If you want to gain access to all features Artisto offers, you'll have to purchase Pro or Plus versions of the app. The price, image quality, the number of cartoon effects, or the export features should all play a part in your decision on which app you're going to download and use to cartoon yourself. Conclusion Choosing an app you're going to use to cartoon your images may be a difficult task since there are so many different options available. The annual subscription model costs just \$9.99. Part 1: Best Apps to Cartoon Yourself on iPhone Choosing nicely composed shots where the subject is visible can help you create better cartoons, since cartooning blurry pictures with a lot of elements in the background can produce disappointing results.
