With so many apps to choose from, however, it can be a bit daunting if you don't know how to download them. Check with your library to see if they are using Innovative's MyLibrary! app! If your library uses MyLibrary!, you can access your library and all its resources with the MyLibrary! app. • Search your library's catalog of materials with an easy to use search. • Renew books, see fines, check on your on hold items and more. • Stay connected with your library to see what's happening via Twitter, Facebook, or Instagram. • Use the app to display your library card for check outs at the library. If you choose a paid app, you'll be prompted to enter your credit card information or a gift card to complete your order. Using the Apple App Store The Apple App Store hosts apps designed for iPhones, iPads and other Apple devices. (It's often pre-installed on phones and tablets, so you may already have it.) This makes putting books on hold and checking books out from the library so simple! I love being able to just request what I want and for it to be ready when I get there. Either way, once the file is downloaded, you're good to go. Downloading Windows Apps Microsoft hosts apps on its website, which you can access via a web browser. To download apps for an Android device, you can either visit the Android website or use the Google Play app. Photo Courtesy: Scott Barbour/Getty Images Apps are typically set up as executable (.exe) files, although apps meant for Apple devices often come as either APP (.app) or DMG (.dmg) files. Any recommendations of a simple replacement ... Choose the app you want and follow the onscreen directions to download it to your device. I just want to be able to read ePub format books on my tablet, see the description of a book, sort by title or author, remember what page I stopped reading at (or ability to bookmark it) and be able to delete the book when read. I don't need, or want" huge power & functionality as in Calibre. You'll need to log in or create an account complete the purchase. If your library provides cloudLibrary or OverDrive materials, you may place holds, check out, and in some cases, return your digital content. Please review our privacy policy (. We hope you enjoy connecting with the library — no matter where you are! Apr 1, 2020 Version 3.3.1 Version 3.3.1 fixes the problem where when Dark Mode was enabled, some text in the app was not visible. This version disables dark mode for the MyLibrary! app to ensure all text is legible. Odds are that if your phone isn't an iPhone, it's probably an Android device — brands include Samsung, Huawei, LG, Motorola, ZTE and many more. Click on the app result to learn more about it. To do this, you may need another program, such as WinZip or 7-Zip, to open it, although you may also be able to open it by left- or right-clicking if your device came with the ability to open ZIP files. This was absolutely the BEST, simple ePub reader I have ever used and agy me all of the feature I needed. If the app is free, it should begin to download; if not, you'll be prompted to pay for it. As with Google Play, it's often pre-installed on phones. Gone, now ... As long as there's enough space left on your device, the app will likely be ready for use once it's done downloading. Read on to learn about how and where to download apps. How Downloading Apps Works When you download a file on the net, whether from a store or elsewhere, a file hosted on an online server is copied onto your computer. If you've ever been online, either on a phone or computer, you've likely already downloaded files on many occasions. Like other app stores, it lets you filter apps by category, including featured apps, newest apps, popular apps, themed categories and more.
